

Research and Innovation Centre
Khulna University, Khulna
FY: 2023-24 (2nd Call)

Sl.	ID	Name and Designation	Discipline	Project Title	Allocated Money
1	35	Dr. Md. Kamrul Hasan Associate Professor	Chemistry	Improvement of the dispersion stability and Vis-NIR reflectance of TiO ₂ through polymeric encapsulation by in-situ emulsion polymerization	5,00,000/=
2	66	S.M. Tafsirul Islam Lecturer	URP	Efficiency measures of urban land transformation in Bangladesh	4,75,000/=
3	45	(a) Dr. Arun Kanti Bose Assistant Professor (b) Prof. Md. Salim Azad	FWT	Does environmental memory determine tree growth and biodiversity in the changing environment?	6,00,000/=
4	65	Sharmin Sultana Lecturer	SWE	Impact of different irrigation regimes on nitrogen dynamics in saline soils	4,25,000/=
5	51	(a) Dr. Md. Salahuddin Mina Associate Professor (b) Dr. Muhammad Shahriar Bashir Principle Scientific Officer (PSO) Bangladesh Council of Scientific and Industrial Research	Physics	Fabrication and characterization of photoabsorber layers of chalcogenide (CIGSSe)-based thin film solar cells	3,50,000/=
6	46	Prof. Dr. Md. Saidur Rahman	FWT	Mapping and monitoring top-dying disease of the Heritiera fomes tree species in the Bangladesh Sundarbans	6,50,000/=
7	47	Prof. Dr. Md. Azharul Islam	FWT	Development of hydrochar-based slow-release fertilizers through co-hydrothermal carbonization of biomass and nutrients for sustainable agriculture	6,00,000/=
8	56	(a) Asma Chowdhury Lecturer (b) Imtiaz Masroor Lecturer	Printmaking	Women Artists in the Institutional Sphere: Understanding the Influence of Society on Art Education in Bangladesh	4,00,000/=
9	30	Dr. A.T.M. Masood Reza Associate Professor	Architecture	Constraints to Green Roof adoption in shared multifamily apartments in Khulna City	5,00,000/=
10	31	Dr. S. M. Abdullah Al Mamun Associate Professor	AT	Assessment of Genetic Variability and Gene Flow in Sodium Azide Induced Rice Mutants (M3) Revealed by Quantitative Traits and Molecular Markers	5,90,000/=
11	34	Amit Sarder Assistant Professor	BGE	Evaluation of Lead Level in Umbilical Cord Blood: An Assessment to Quantify the Intensity of Fetal Exposure to Lead in Khulna, Bangladesh	5,00,000/=
12	53	(a) Md. Ifat-Al-Karim Lecturer (b) Dr. Md. Al-Mamun Bangladesh Atomic Energy Commission	Physics	Structural and Morphological analysis of novel Graphene Oxide/ Hydroxyapatite/ Cobalt (GO/ HAP/ Co) nanocomposite for biomedical applications	4,00,000/=
13	48	Prof. Dr. Md. Enamul Kabir	FWT	Tree Species Diversity and Carbon Stock Assessment in the Homegardens of Dumuria Upazila of Khulna District in Bangladesh	4,00,000/=

14	42	(a) Prof. Dr. Md. Mahbub Hossain (b) Prof. Dr. Md. Maniruzzaman	ECE	Theoretical Analysis of Photonic Crystal Fiber Glucose Sensor	4,60,000/=
15	54	(a) Md. Sohel Sikder Assistant Professor (b) Prof. Dr. Md. Rashedur Rahman	Physics	Synthesis, characterization and applications of bulk and nano Mg-Mn-Co Ferrites	3,50,000/=
16	58	(a) Dr. Sanjoy Kumar Chanda Associate Professor (b) Bijoy Mondal Assistant Teacher	Sociology	Developing a behaviour change intervention to increase primary healthcare services by female sex workers in Khulna	5,00,000/=
17	43	Dr. Shakila Naznin Associate Professor	ECE	Design and optimization of sensors using optical microring resonators and photonics crystal fibers	4,80,000/=
18	33	(a) Md. Abul Fazal Assistant Professor (b) Shakila Alam Assistant Professor	Bangla	নাগরিক-জীবনে লোকসংস্কৃতির প্রভাব: খুলনা মহানগর (Impacts of Folk-culture in Urban life: Khulna metropolis)	5,00,000/=
19	62	Nipa Adhikary Associate Professor	SWE	Potentiality of Tea Waste-Banana peel Compost (TBC) to conserve soil quality and control salinity for sustainable agricultural productivity	4,00,000/=
20	44	Dr. Shaikh Tareq Arafat Associate Professor	FMRT	Identification of mass plastics and effects of microplastics on upstream aquatic environment adjacent to Sundarbans	5,00,000/=
21	61	Prof. Dr. Jagadish Chandra Joardar	SWE	Analyzing the Nutrient Dynamics and Eutrophication in Prawn Cultivation Ponds of Southwest Bangladesh	4,50,000/=
22	37	Sagar Kumar Dutta Assistant Professor	Chemistry	Developed a novel adsorptive metal oxide nanoparticles incorporate Polyvinyl Alcohol (PVA) / Chitosan (CS) Nanocomposite Films: Hydrophobic coatings, dye adsorption, antibacterial and anti-oxidant activity analyses	3,50,000/=
23	41	Dr. Rafia Nishat Toma Associate Professor	ECE	“Jogott”: An Array of Artificial Intelligence Enabled Solutions for Diagnosis, Monitoring, and Intervention of Children with Autism Spectrum Disorder	7,00,000/=
24	57	Dipika Chandra Associate Professor	Sociology	Access and Use of Primary Healthcare Services of Rural Elders: An Investigation in Southwestern Region of Bangladesh	5,00,000/=
25	39	Umme Habiba Assistant Professor	Development Studies	Households' Solid Waste Disposable Behavior and Influencing Factors in Khulna City	2,50,000/=
26	64	Prof. Khandoker Qudrata Kibria	SWE	Quantification of heavy metals in retailed foodstuffs in Khulna city: A dietary health risk assessment	6,00,000/=
27	49	(a) Kajol Karmoker Assistant Professor (b) Ripon Kumar Paul Lecturer	HRM	Linking Green Human Resource Management Practices to Environmental Performance in the Hospitality Industry of Bangladesh: The Role of Employee Green Behavior and Green Innovation Culture	2,75,000/=
28	52	(a) Karimul Hoque Assistant Professor (b) Prof. Dr. Md. Ashraf Ali	Physics	Exploring the stability and physical properties of M ₂ AX [M = Ti/Zr/Hf; A = Ge, Tl, P, Zn, Cd, Cu; X = C/B] MAX phases: a DFT study	3,00,000/=

29	40	(a) Asma Ul Husna Associate Professor (b) Sabrina Akter lecturer	Development Studies	An Assessment of Affordable Housing for Low-income People of Khulna City from the Perspective of Supply and Demand Side	2,50,000/=
30	60	Nusrat Jahan Associate Professor	Sociology	Does higher education enhance women's autonomy? A comparative study on secular and sectarian graduates in Bangladesh	5,00,000/=
31	50	Prof. Dr. Munnujahan Ara	Mathematics	Effect of Meteorological Variables and Build-in Environment on the Mental Health Status of University Students during COVID-19	4,00,000/=
32	36	Dr. Muhammad Sarwar Hossain Associate Professor	Chemistry	Utilizing Activated Carbon from Natural Sources for CO2 Capture: A Sustainable Solution for Mitigating Climate Change	5,00,000/=
Total = 1,46,55,000/=
