

Khulna University Research Cell
Khulna University, Khulna
FY: 2022-23 (1st Call)

Sl.	Name and Designation	Discipline	Project Title	Allocated Money
1	Prof. Dr. Md. Amirul Islam	Pharmacy	In-vitro, in-vivo and in-silico evaluation of antidiabetic and antioxidative potentials of endophytes associated with selected medicinal plants of Sundarban	9,00,000/=
2	Prof. Dr Jamil A. Shilpi	Pharmacy	GC-MS Analysis of Essential Oils with their Antibiofilm. and Efflux Pump Inhibitory Activity Investigation by <i>In vitro</i> and <i>In silico</i> Methods	4,50,000/=
3	Prof. Dr. Tuhin Roy	Sociology	Indigenous knowledge and disaster-related coping mechanisms: an exploratory study with the Rakhaine people in Bangladesh.	3,90,000/=
4	Uzzwal Kumar Mallick	Mathematics	Numerical treatment of threats to rice production due to excess use of chemical fertilizers	4,00,000/=
5	Prof. Dr. Samir Kumar Sadhu	Pharmacy	Investigation of two hill tract plants <i>Tarenna campaniflora</i> and <i>Morinda persicifolia</i> for antidiabetic potential and isolation of bioactive components along with in silico analysis	5,00,000/=
6	Maitry Biswas Assistant Professor	URP	Assessing the climate change adaptation plans and policies of the city corporations of Bangladesh	3,50,000/=
7	Dr. Muhammad Shamim Al Mamun Associate Professor	Chemistry	Melamine-AuNPs cross-link as a probe for the glucose detection.	4,50,000/=
8	Prof. Dr. Salma Begum	ES	Investigation of heavy metal contamination in the downstream Pashur of the Sundarbans ecosystem, Bangladesh	4,50,000/=
9	Md. Ashfikur Rahman Lecturer	Development Studies	Socioeconomic Inequalities in Maternal Health Care Utilisation in South-Asia: A Decomposition Analysis	3,50,000/=
10	(a) Asif Ahmed Associate Professor (b) Sunuram Ray Senior Scientific Officer	BGE IISCE	<i>In silico</i> analysis of seaweed derived bioactive compounds and their potential as feed additives for fish production	4,90,000/=
11	Prof. Dr. A R M Mostafizar Rahman	English	Mapping the acoustic variation of English vowels articulated by the L1 Bangla speakers in Bangladesh and India	4,50,000/=
12	(a) Chameli Saha Assistant Professor (b) Sanjoy Saha Senior Scientific Officer	FWT	Ecological responses on salt stress of <i>Bruguiera sexangula</i> (Lour.) Poir. and <i>Xylocarpus mekongensis</i> Pierre in the Sundarbans mangrove forest of Bangladesh	8,50,000/=
13	Taufiq-E-Ahmed Shovo Associate Professor	Sociology	Price Hike of Daily Necessities and the Unnoticed Plight of the Middle- and Lower-Class People in Khulna District: Investigating from A Mixed Approach	4,25,000/=
14	Prof. Dr. Sheikh Julfikar Hossain	BGE	Searching the Most Potential Varieties of Citrus Fruits with High Functional Components and Bioactivities for Public Health and Nutritional Benefits	7,00,000/=
15	Prof. Dr. Md. Rafiqul Islam	Mathematics	Improvement of Data Security System Using Wavelet and Multiwavelet Transformation	4,00,000/=
16	Prof. Sheikh Serajul Hakim	Architecture	Exploring the possibility of retrofitting sustainable water technology (ies) for coastal housing rehabilitation projects: The cases of Ashrayan-II, Mongla	8,50,000/=

17	Dr. Uzzal Biswas Associate Professor	ECE	An Effective Bengali Sign Language Communication Tool for Deep & Dumb people.	4,50,000/=
18	Bishwajit Bokshi Associate Professor	Pharmacy	Investigation of mangrove algae for their potential role in the management of type 2 diabetes	4,00,000/=
19	Prof. Dr. Md. Nazmus Sadath	FWT	Outcome based actor centered power mapping in protected area co-management governance in the Sundarbans	4,00,000/=
20	Prof. Dr. Md. Emdadul Islam	BGE	Extraction, Purification and Formulation of Meat Tenderizing Proteolytic Enzymes from Plant Sources	5,00,000/=
21	Dr. Debesh Das Associate Professor	AT	Promoting growth, yield and fruit quality of bell pepper through seaweed extract and silicon induced amelioration of coastal saline soil in Bangladesh	5,00,000/=
22	Dr. Md. Mahiuddin Assistant Professor	Chemistry	A facile one-step green synthesis of bismuth/reduced graphene oxide (Bi/rGO) nanocomposite using safe chemicals: Catalysis and charge-storage applications	4,50,000/=
23	Dr. Md Hanif Associate Professor	SWE	Multi-surface modelling approach to predict Cu and Zn adsorption on soils in different NaCl concentrations	4,00,000/=
24	Shapla Singha Assistant Professor	Drawing and Painting	Refining Art Learning through Social Heritage in Khulna City	3,75,000/=
25	Ehshan Mazid Mustafa Assistant Professor	LAW	Environmental protection in the camp area of forcibly displaced Rohingyas Staying in Bangladesh: A Legal Study	4,50,000/=
26	Prof. Dr. Abdur Rahman Shahin	English	Popularizing Ecocriticism: Environmental Awareness of the Students of English Discipline of Khulna University	3,00,000/=
27	Md Salauddin Associate professor	URP	Water and ecology: An exploration of Khulna city's water consumption and ecological change through the socio-ecological metabolism approach	3,50,000/=
28	Mr. Atanu Shome Assistant Professor	CSE	Automation Methodology for Cricket-Commentary through Video Analysis using Computer Vision.	4,00,000/=
29	a) Rabeya Sultana Assistant Professor b) Md Riad Hossain Assistant Professor	ES IDM (KUET)	Interaction of environmental pollutants (Microplastics and heavy metals) with Nutrient uptake efficiency in frequently inundated floodplain agro-ecosystem	3,50,000/=
30	(a) Prof. Dr. Md. Noor Un Nabi (b) Prof. Dr. Md. Nur Alam	BA	Exploring the sources of fear of failure in initiating business startup as career path among the undergraduate students of the selected public and private universities in Bangladesh	4,00,000/=
31	Prof. Dr. Ariful Islam	Mathematics	DEM simulation of ultrafine magnetic minerals in microchannels in the presence of fluid flow and a high-gradient magnetic field	5,00,000/=
32	a) Prof. Dr. Md. Yasin Ali b) Prof. Dr. Mst. Sabiha Sultana	AT	Morpho-physiological and Biochemical Response of Rice Plant to Biotic Stress (<i>Pyricularia oryzae</i>)	4,00,000/=
33	Prof. Dr. Uttam Kumar Majumder	Statistics	Factors Affecting Academic Performance of Mathematical Science Students of Public Universities in Bangladesh: Multilevel Modelling Approach	4,00,000/=

34	Dr. Sifat Sarwar Assistant Professor	Architecture	Estimate of uncertainty in the sediment erosion-accretion rate due to uncertain sea level rise along Bangladesh coastline	5,00,000/=
35	Biplab Ray Associate Professor	Bangla	গাজীর গান: সমাজ ও সাম্প্রদায়িক সম্প্রীতি	3,50,000/=
36	Falguni Akter Assistant Professor	SWE	Effect of NaCl salinities on the adsorption of Zn on soils	3,75,000/=
37	(a) Dr. Md. Mahadhi Hasan Assistant Professor (b) Dr. Shamsunnahar Khushi	Pharmacy	The assessment of postsurgical pain management at a tertiary care hospital in Khulna, Bangladesh.	3,50,000/=
38	(a) SK Alamgir Hossain Associate Professor (b) Prof. Dr Anisur Rahman	CSE	Design and Development of an Integrated Framework for Building Sustainable Smart Cities in the Context of 4IR	5,00,000/=
39	Prof. Dr. Mohammad Ismat Kadir	ECE	Deep Learning for Reconfigurable Intelligent Surface Aided Orthogonal Time Frequency Space	4,00,000/=
40	Prof. Dr. Abdullah Harun Chowdhury	ES	Heavy metal contamination in the cultivated vegetables and farmed tilapia and shrimp in southwest Bangladesh: a study to highlight probable health risks	4,50,000/=
41	Simu Akter Assistant Professor	ES	A mechanistic approach to investigate increasing coastal water salinity as an emerging disaster in the Southwest Bengal Delta in Bangladesh	4,00,000/=
Total =				1,87,55,000/=

Research and Innovation Centre
Khulna University, Khulna
FY: 2022-23 (2nd Call)

Sl.	Name and Designation	Discipline	Project Title	Allocated Money
1	Shahinur Akter Assistant Professor	Sociology	Malnutrition among Under-five Children in South-western Coastal Areas of Bangladesh: A Cross-sectional Study on Prevalence and Associated Factors	4,00,000/=
2	Irin Azhar Urme Lecturer	Development Studies	Post-pandemic Livelihood Resilience Assessment of Urban Slum Dwellers in Bangladesh: A Pragmatic Approach	3,00,000/=
3	Prof. Dr. Md. Lifat Rahi	FMRT	Population Genetics of the Major Carp (<i>Labeo calbasu</i>): Stock Improvement and Initiatives for Developing Resilient Lines to Climate Change	7,00,000/=
4	a) Bidhan Chandro Sarker Associate Professor b) Prof. Dr. Md. Sarwar Jahan	AT	Abiotic stress tolerance capacity of sunflower (<i>Helianthus annuus L.</i>) during dry season to fit in the coastal saline soils of southwestern Bangladesh	4,00,000/=
5	Dr. Md. Ahsan Habib Assistant Professor	Chemistry	Green synthesis of reduced graphene oxide (rGO) using <i>Sonneratia apetala</i> (Keora) fruit aqueous extract: charge storage and organic dye removal.	5,00,000/=
6	Prof. Dr. Md. Golam Sarower	FMRT	DNA barcoding of marine invertebrates from the estuary and Bay of Bengal, Bangladesh.	7,00,000/=
7	Prof. Dr. Md. Kamruzzaman	FWT	Intra and inter specific variation of propagule settings and its development phases of the family Rhizophoraceae in the Sundarbans mangrove forest	6,00,000/=
8	a) Md. Salauddin Khan Associate Professor b) Dr. Ishita Shahid Sams	Statistics Sociology	Assessing the Socioeconomic and Mental Health Status in Relation to Gender among the Slum Dwellers of Khulna City for the Consequences of COVID-19 Pandemic	3,00,000/=
9	Prof. Dr. Md. Abdullah Yousuf Al Harun	ES	The nexus of microplastic contamination in the marine ecosystem adjacent to Saint Martin Island	3,00,000/=
10	Md. Anisuzzman Assistant Professor	Pharmacy	A novel antibody and anti-cancer drug functionalised gold nano-immunoconjugates to overcome acquired resistance to anticancer therapy	7,00,000/=
11	a) Afsana Polly Assistant Professor b) Dipika Chandra Assistant Professor	Sociology	Impediments in Accessing Digital Healthcare: A Study on Elderly People in Khulna District	4,00,000/=
12	DR. Shimul Das Associate Professor	AT	CP (Coat Protein) and 3' UTR (Untranslated Region) based metagenomic analysis of Chili leaf curl virus (ChLCV) threatening the productivity of chili	6,00,000/=
13	Prof. Dr. Md. Rezaul Haque	Chemistry	Conversion of agricultural wastes into cleaner materials and evaluation of their suitability in water remediation	6,00,000/=
14	Prof. Dr. Ahsan Habib	BGE	<i>In silico</i> approach to identify potential natural antimicrobial agents against multi-drug resistant bacteria	5,00,000/=
15	Prof. Dr. Utpal Kumar Karmakar	Pharmacy	<i>In vivo</i> and <i>in vitro</i> exploration of <i>Strobilanthes scaber</i> and <i>Artocarpus chama</i> with GCMS analysis and <i>in silico</i> study.	5,00,000/=

16	Dr. Chanchal Mandal Assistant Professor	BGE	Comparative assessment of heavy metals present in amniotic fluid and meconium: Bangladesh perspectives	5,00,000/=
17	Dr. Kaykobad Md. Rezaul Karim Associate Professor	Chemistry	Metal oxide-based graphene oxide (GO) hybrid photocatalyst for photocatalytic dye degradation under visible light irradiation.	3,50,000/=
18	Prof. Dr. Abdullah-Al Nahid	ECE	Developing Novel Diagnostic and Intervention Schemes for Physical and Neurological Rehabilitation using Deep Learning Methods	5,00,000/=
19	Prof. Md. Sanaul Islam	SWE	Biomass and carbon stock in the coastal plantation in Borguna district, Bangladesh	4,00,000/=
20	Prof. Dr. Md. Matiul Islam	AT	Identification and Efficacy Assessment of Indigenous Technical Knowledges (ITKs) as Climate Smart Agriculture (CSA) Technology	6,00,000/=
21	Sadia Islam Mou Assistant Professor	ES	Identification of contamination source in water supply system in <i>Bongomata Begum Fazilatunnessa Mujib Hall and Aparajita Hall</i> in Khulna University Bangladesh	2,00,000/=
Total = 1,00,50,000/=
